

Menu Intelligence Brief

Product type: Menu Intelligence Brief

Account mode: white_label (consultants, agencies, food-tech builders)

Price band: \$1,000+/mo

Commercial lens: resellable intelligence, exportable briefs, and API-backed decision support

Copyright boundary: Commercial metadata only. No full copyrighted recipe instructions are stored or returned.

Usage

- Use as a commercial decision brief, not a recipe document.
- Pair records with venue constraints: labour, prep capacity, packaging, and target buyer.
- Convert high-scoring records into audit findings, preorder drops, catering trays, or white-label intelligence.
